

Hey 4B,

Hope everyone is working hard on their home learning but also enjoying time with your families. I know this is a strange time, but it will be over soon enough, and you can get back to making fun of me when I lose at showdown. However, I've been practising my timestables so I'll be ready to win next time, so I suggest you get rocking out on TTRockstars, if you want to keep winning as a class.

I hope as well as working hard you have all remembered to enjoy yourselves and keep yourselves busy. I know it's hard staying indoors but now is the perfect time to teach yourself some new skills.

Apart from working hard, learning, I've also been doing lots of drawings. Here is one I drew of me and Bandit. We have spent lots of time together and he won't stop shouting at me to play with him. His favourite thing is to chase some string and steal my food. I hope to see all the wonderful things your guys are getting up,

you can share all the fun you are having on class dojos, so make sure you are logging on or getting your parents to log on. I will also be posting lots of exciting activities and sharing all the things you are getting up to on our class story, so you can see how your friends are keeping busy as well. Hope everyone is having the best time possible. Keep safe and happy.

Mr Unwin.
