

Hi 6B,

I hope you are all safe and well and not missing me too much!

What we are living through at the moment is real history, and something we probably won't see again in our lifetimes.

It feels strange not coming into school every day, and I am sure that even for you as children, not being able to see your friends and not having your usual lessons is a big shock. Hopefully, it won't be too long before things are able to get back to normality.

Although I'm sure some of you breathed a huge sigh of relief that there'd be no SATs this year, it is disappointing that you don't have the opportunity to show off all the progress that you have made.

I hope you have been making the most of the learning packs that we sent home, and are using the website to access further learning. We are updating it to ensure you have new and exciting things to do.

I know that my children didn't want to do any work to begin with, but are now finding this time at home boring and are glad for their learning activities from school.

Most people probably think that us teachers have it easy working from home, but looking after Hollie, Max, Henry and Albie whilst also doing work on my laptop is extremely tiring. I think going back to school will be like a rest for me now.

I hope to see you all again soon. Make sure you are behaving for your parents and remember to stay at home and stay safe.

See you soon

Mr Prendergast
